STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco smaller than a year ago.

Leaf tobacco stocks in the United States and Puerto Rico totaled 4,828 million pounds as of January 1, 1972, based on the quarterly reports of dealers and manufacturers. This is a decline of 178 million pounds when compared with the previous January 1.

Marketing by growers of the 1971 crop prior to January 1 was approximately 1,660 million pounds representing 94 percent of estimated production.

Stocks as of January 1 included about 1,149 million pounds of leaf tobacco under Government loans--down 222 million pounds from a year ago. Included in this total are approximately 200 million pounds of flue-cured and burley for which firm purchase commitments have been received.

Loan stocks as of January 1, 1972 were divided as follows:

flue-cured.....	718.9	million pounds
burley.....	405.6	" "
fire-cured.....	3.7	" "
dark air-cured.....	13.7	" "
cigar leaf.....	6.7	" "

The reader should bear in mind that a dock workers' strike in October and November of 1971 brought export and import activity to a virtual standstill during those two months. Leaf inventories on January 1, 1972, in several types, particularly domestic flue-cured and imported cigarette and cigar leaf, may not accurately reflect current trends.

---

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by grower cooperatives, which are considered dealers for stocks-reporting purposes.

#### CIGARETTE LEAF STOCKS

##### Flue-cured higher; burley, Maryland, and imported lower.

Stocks of flue-cured tobacco totaled 2,512 million pounds on January 1, 1972--an increase of 8 million over last January 1. Final producers' sales of the 1971 crop are estimated at 1,076 million pounds, about 10.2 million below last season.

Burley inventories this January 1 totaled 1,565 million pounds--99 million below the stocks of a year ago. Producers' sales of the 1971 crop are not expected to surpass 475 million pounds, a drop of at least 15 percent from the 1970 crop.

Maryland stocks on January 1, 1972, were 46 million pounds--4 million below a year ago.

Stocks of foreign-grown cigarette and smoking tobacco were 339 million pounds, a sizable decline of 47 million from last January 1. A breakdown of these holdings into Oriental, flue-cured, and burley tobaccos is shown in the various tables.

#### DARK TOBACCO STOCKS

##### Decline in both fire and dark air-cured.

Fire-cured stocks, reported at 57.8 million pounds on January 1, 1972, were 6.2 million below those of a year ago. Virginia fire-cured holdings were 10.4 million pounds; Eastern District Kentucky and Tennessee, 40.7 million; and Western District, 6.7 million pounds. Sales of the 1971 crop of Virginia fire-cured in December were about 2.7 million pounds. Kentucky and Tennessee auction markets did not open until January, but considerable tobacco was purchased in the country prior to Christmas.

Holdings of dark air-cured tobacco totaled 54.2 million pounds this January 1. This was 4.9 million below January 1, 1971. Inventories by types: One Sucker, 33.4 million pounds; Green River, 17.4 million; and Virginia sun-cured, 3.4 million pounds. Producers' sales of dark air-cured leaf prior to January 1 were approximately 6.7 million pounds.

## CIGAR LEAF STOCKS

### Domestic leaf lower, imported higher.

Holdings of all domestic types of cigar leaf were reported at 165.3 million pounds on January 1, 1972--a drop of 18.5 million pounds from a year ago. Foreign-grown cigar leaf totaled 82.9 million pounds, a drop of 16.0 million.

Cigar filler stocks totaling 97.7 million pounds were down 16.4 million from last January 1. Pennsylvania Seedleaf stocks were 79.2 million; Ohio filler, 7.2 million; and Puerto Rican, 11.3 million pounds.

Stocks of cigar binder types were up 1.1 million at 44.7 million pounds. Individual type inventories: Connecticut Valley Broadleaf, 5.3 million; Connecticut Valley Havana Seed, 2.7 million; Southern Wisconsin, 17.7 million; and Northern Wisconsin, 19.0 million pounds.

Shade-grown cigar wrapper stocks this January 1 were 22.9 million pounds--down 3.2 million from last year. Connecticut Valley Shade stocks were 14.2 million pounds; and Georgia Florida Shade, 8.7 million.

Stocks of foreign-grown cigar leaf were divided as follows: Cuba, 0.5 million; Philippine Islands, 31.6 million, (down 8.8 million); Indonesia, 4.1 million; Brazil, 7.3 million; Columbia, 6.4 million; Dominican Republic, 9.2 million; Paraguay, 5.6 million; Mexico, 5.2 million; and other countries, 12.4 million pounds.

The inventory this January 1 contained 26.9 million pounds for use in cigarettes and smoking tobacco and 1.8 million pounds for cigar binder and wrapper.

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweatened weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

1/ Totals include stocks of leaf tobacco sheet. See separate reporting in table 4.

2/ Type 73 is defined as all domestic tobacco not otherwise classified.

3/ In previous quarters these tobaccos were grouped together and designated type 90. The increasing volume of imported flue-cured and burley leaf made separate reporting necessary.
